SUBJECT:

H.R. 8748, Recodification of Title V, U.S.C.

1. We have reviewed H.R. 8748 and the accompanying House report and have no changes to suggest. This seems to have been a very careful and accurate piece of work and will simplify references.

2. One item which we think might be added to Title V is the material on "missing persons" now contained in 50 App. 1001-1015. However, some restriction in its general application might make this inappropriate.
